

BBX MOVING

MOVING GUIDE

ONE TEAM ONE GOAL
- YOUR PEACE OF MIND

Packing and unpacking is the longest part of any move and accounts for 50% of the cost.

Here are some **tips** to make it easier:

1. **Declutter:** Use your move as an opportunity to simplify your life; let go of items you have not used in the last 6 months. Sell or donate.
2. **Start Early:** You probably have more than you think so start early to avoid last minute stresses. Start packing 2 to 4 weeks before move day.
3. **Music Magic:** Boost your efficiency and reduce stress by playing your favorite tunes while you pack and prepare for the move.
4. **Gather Supplies:** Inventory your stuff, designate packing spots in each room, and call us for an estimate on boxes and supplies .
5. **Protect Delicates:** Ensure the safety of fragile items by wrapping delicate items with paper or bubble wrap.
6. **Label Well:** Label boxes by the destination area/room at your new house, then the contents below; movers will know where to place the box and it will be easier to unpack.
7. **Pack Responsibly:** Don't break backs; keep each box under 50 pounds.
8. **BBX boxes + dolly:** Pack efficiently by starting with 1 empty box on a dolly. Pack it, label it, close the lid then put the next empty box on top. Repeat until you have 5 boxes high and roll the stack away.
9. **First Night Essentials:** Prepare for the first night in your new space by designating a box/bag/suitcase as "first night" essentials, include important items like toiletries or a favorite stuffed animal.
10. **Floor Care:** Protect your floors by placing sheets, towels, or mats beneath your boxes to prevent scratches and don't drag your boxes.

**MAKE
THE MOVE**

MOVING CHECKLIST

4-6 Weeks Before Moving:

- Set a move date.
- Create a budget for moving expenses.
- Declutter and donate or sell items you don't need.
- Gather moving supplies like boxes, tape, and bubble wrap.
- Research moving companies and get 3 quotes.
- Book elevator(s) and reserve parking

3-4 Weeks Before Moving:

- Book your mover, get boxes and packing supplies
- Notify utility companies of your move and set up services at your new place.
- Start packing non-essential items and label boxes by room.
- Update your address with the post office, banks, subscriptions, and institutions.
- Collect important documents like medical records.
- Book cleaning company if needed.

1-2 Weeks Before Moving:

- Confirm moving arrangements with chosen company.
- Pack a bag of essentials for the first few days in your new home.
- Disassemble furniture if necessary.
- Plan and visualize how to place furniture at the new house.
- Finish packing and prepare for moving day.
- Make arrangements for children and/or pets on move day
- Remember, don't stress and breathe. You're doing a great job!

Moving Day:

- **SLEEP. It's a big day and getting a good nights' rest is very important.**
- Have essentials like snacks, documents, and a change of clothes on hand.
- Let your movers know which items require special handling before they start.
- Now relax (try), and let your movers do their work.
- Remember, the most important task for you is making decisions on where to place items in your new home, NOT helping movers move stuff.

After Moving:

- Do a walkthrough of your new home and report any issues.
- Unpack essentials first and gradually tackle the rest.
- Get your favorite drink, say hi to new neighbors and enjoy your new home!

WHY CHOOSE **BBX** MOVING ?

BBX BOXES

VS

CARDBOARD
